Notes

1. As a membership benefit, each member firm will receive a credit equivalent to the annual value of one Extranex 64 connection, subject to meeting the following criteria:
 - a) subscription to a minimum of one primary Extranex connection (64 to 2000)
 - b) spend of £10,000 on Exchange Charge between 1 April 2002 and 31 March 2003 for either Automatically Matched Trades or Trade Reportable Business.Member firms will receive the annual credit note, following 31 March 2003.
2. If a customer takes a service part of the way through the year from 1 April 2002 to 31 March 2003, the annual charge due and eligibility for the credit and credit note will be calculated and payable on a pro-rata basis.
3. An ISDN line is required to provide the resilient circuit for an Extranex 64 service. Customers will need to arrange this provision.
4. Back-up II can only be taken on a one-for-one basis with a primary Extranex subscription.
5. Test connections can only be used for connection to the London Stock Exchange's test services.

All UK prices are based upon the London Stock Exchange's standard telecoms provider(s) for each location and installation type. The London Stock Exchange reserves the right to vary its prices, should the standard provision not be possible. In this instance, a separate quotation will be provided to the customer.

All prices exclude VAT. The prices are quoted in UK sterling.

All prices are for UK, Isle of Man, Channel Islands and Eire installations only. For overseas charges please contact your account manager. For terms and conditions relating to these services, please refer to the Extranex Communication Service Contract and Order Form.
